Collaboration and communication are key factors needed for the success of any healthy IEP team. There needs to be a clear understanding of the roles and responsibilities for all members. This workshop is designed to give participants the tools they need to enhance their comfort as well as effectiveness in their role.

Workshop speakers will share their experiences from variant perspectives, including that of a Special Education Coordinator, Special Education Teacher, General Education Teacher, Paraprofessional and Parent.

A variety of tools will also be provided that participants can take back to share with and use for their own IEP teams.

We hope that you will join us for this extremely great opportunity!
